YOUTH & THE CITY: BUILDING OUR FUTURE

A project for a cooperative,
multi-agent approach on
Youth Unemployment

What is it all about?

YOUTH & THE CITY is a European project aspired to address the grave issue of youth unemployment via the cooperation of the young people themselves, youth councils and local principals. Based on "Think globally, act locally", the aforementioned agents managed to analyze unemployment paradigms from EU countries and direct their common decisions to localized actions on the improvement of the employability rates, exploiting therefore to the maximum the flexibility comprised in the local level and battling this way more effectively with the issue at hand. Young people from all over Europe gathered initially in Naousa in October 2012 to participate in this proposed scheme.

OUR TOOLS

- ⇒ Social dialogue between Youth and local authorities.
- ⇒ Experiential learning methodology and non-formal educational environment.
- ⇒ Entrepreneur's inside information and testimonies about business ideas and strategies.

WHY CHOOSE NON-FORMAL LEARNING?

Experiential methodology is based on interaction between the participants in a non-formal learning environment. It actively contributes to personal skills development as it mainly favors the learning process by acknowledging and adjusting to the individualized needs of an adult, combining simultaneously the cognitive and the interactive aspect of learning.

For more information on non-formal education, please download the Youth in Action Programme guide (http://ec.europa.eu/youth/youth-in-action-programme/programme-guide_en.htm)

OUR GOALS

In this active and flexible learning condition, the participants managed to:

- * Acquire useful information on specific issues concerning employability (p.e. tips for composing a CV)
- * Participate in the decision-making process along with local authority bodies concerning youth unemployment
- * Develop their communication and social skills
- * Affiliate with the concept of active citizenship
- * Broaden their mentality as citizens of the world by interacting and experiencing different cultural elements
- * Grow feelings of respect for "the other" in general

They said about the project:

"I really loved the different approach on the issue and the non-formal context. Thank you for the experience!"

"I hope to meet u guys again in Banana country in the future:) LÜLÜLÜ EFENDİM :)"

"Nothing would make me happier than to see our plans becoming reality! We were very creative in solving employability issues and I enjoyed our team work!"

"...made some good friends during this experience, also made some serious thinking about my government's decisions on youth unemployment and already have some great ideas for implementation when I get home. Thanks for the inspiration!"
