### 1.1 Youth in Action (1.1/R3/2012/10-CR-II-E49-2012-R3)

The achievements of human development, such as technological evolution, better quality of life and recognition of human rights, are among the most significant factors of modern life. They are all important to keep us moving forward in this crucial period and to ensure a better future. However, we need to focus on what seems to be forgotten and taken for granted; that is the values of life! It is because of these values that every human being is entitled to have certain standards of living and expect to be treated rightfully and with respect.

The values of life in modern Europe, such as equity, democracy, law and order, solidarity, freedom, human rights and justice, values that have been forgotten, characterize people and their lives in the hope of a better future.

The project "It's all about our values. Pose it up!", which was implemented by NGO AENAO (<http://aenao.org>) and was funded by Youth in Action, sub-action 1.1, aimed to increase awareness of young people on the values of everyday life in the European Union, etc. , and their importance in everyday life.

Experiential learning, which applies in non-formal education settings, was used to achieve the goals mentioned above. Emphasis was given particularly in the history of the European Union as well as in the development of the youths' creativity through dancing and photography.

The project was implemented in Chalkidiki (27/7-3/8 2013) at sports camp "SKOURAS", where 35 beneficiaries from 7 European Union countries (Italy, Romania, Malta, Estonia, Turkey, Sweden and Greece) were able to interact, get sensitive and adapt into the group in order to learn and develop their personal creativity.
